Capsule pressure gauge, copper alloy or stainless steel Process Gauge, safety version per ASME B40.100 Models 612.34, 632.34 and 633.34

WIKA data sheet PM 06.07

for further approvals see page 3

Applications

- Process industry: Plant construction, chemical industry, petrochemical industry, power plants, mining, on-/offshore and environmental technology
- For gaseous, dry and aggressive media, also in aggressive environments

Special features

- Safety version with solid baffle wall designed in compliance with the requirements and test conditions of ASME B 40.100
- Low scale ranges from 0 ... 25 mbar to 0 ... 600 mbar
- Nominal size 4 ½" (115 mm)
- Robust, glass-fibre reinforced case from POCAN®

Capsule pressure gauge model 632.34

Description

The models 612.34, 632.34 and 633.34 are high-quality capsule pressure gauges and have been designed especially for increased safety requirements within the process industry.

The capsule measurement principle is particularly suitable for low pressures. On pressurisation, the expansion of the capsule element, proportional to the incident pressure, is transmitted to the movement and indicated.

The glass-fibre reinforced POCAN® case offers the necessary stability for reproducible measurements, even under aggressive ambient conditions.

With the model 633.34, a case filling with silicone oil enables use in applications with highly dynamic pressure loads and vibration.

Standard version

Design

Per ASME B40.100

Nominal size in mm

4 ½" (115 mm)

Accuracy class

Grade A per ASME B40.100

(corresponds to indication accuracy ±2.5 %)

Scale ranges

0 ... 25 mbar to 0 ... 600 mbar

or all other equivalent vacuum or combined pressure and vacuum ranges

Pressure limitation

Steady: Full scale value Fluctuating: 0.9 x full scale value

Permissible temperature

Ambient: -20 ... +60 °C (-4 ... 140 °F)

Medium: $\leq 100 \,^{\circ}\text{C} (212 \,^{\circ}\text{F})$

Temperature effect

When the temperature at the measuring system deviates from the reference temperature +20 °C (+68 °F): max. ± 0.6 %/10 K of full scale value

Ingress protection

NEMA 3 (IP54 per EN/IEC 60529)

Process connection

Model 612.34: Copper alloy

Model 632.34: Stainless steel 316L Lower mount, ¼ NPT or ½ NPT (male)

Pressure element

Model 612.34: Copper alloy Model 632.34: Stainless steel

Movement

Model 612.34: Copper alloy Model 632.34: Stainless steel

Dial

Aluminium, white, black lettering, pointer stop pin at 6 o'clock

Pointer

Aluminium, black, adjustable pointer

Case

POCAN® (thermoplastic), black, with solid baffle wall (Solidfront) and blow-out back, surface mounting flange integrated on the rear

Window

Clear non-splintering plastic, sealing from NBR

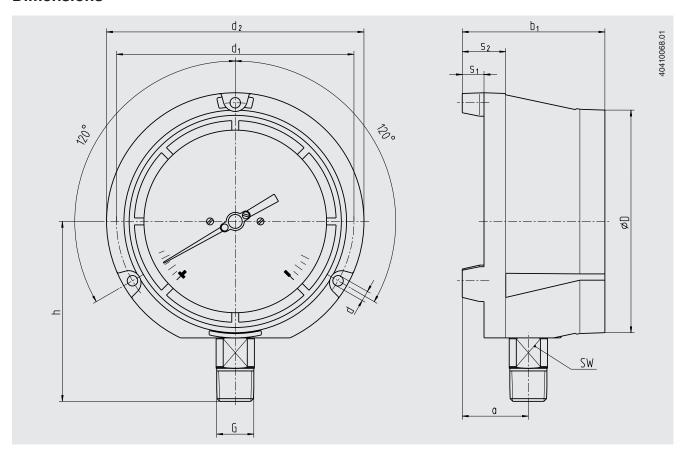

Ring

Threaded bezel, POCAN®, black

Options

- Restrictor screw in the pressure port
- Overload safety:
 - 3 times for scale range 0 ... 25 mbar
 - 10 times for scale ranges > 0 ... 25 mbar
- Adapter kit for panel mounting
- Window: Instrument glass or laminated safety glass
- Other process connection
- Dial layout to customer requirements
- Case filling with silicone oil M50 for scale ranges from 0 ... 100 mbar

Dimensions

| Dimensions in mm | | | | | | | | | | Weight 2) | |
|------------------|----------------|-----|----------------|----------------|----------------|-------|-------|----------------|----------------|-----------|-------|
| а | b ₁ | D | d ₁ | d ₂ | d ₃ | G | h ± 1 | S ₁ | S ₂ | SW 1) | in kg |
| 40 | 84 | 128 | 136.5 | 148 | 6.3 | ½ NPT | 103.5 | 12.5 | 25 | 22 | 0.9 |

| Dimensions in inch | | | | | | | | | | Weight 2) in | |
|--------------------|----------------|------|----------------|-------|-------|-------|----------|----------------|----------------|--------------|-----|
| а | b ₁ | D | d ₁ | d_2 | d_3 | G | h ± 0.04 | S ₁ | S ₂ | SW 1) | lbs |
| 1.575 | 3.31 | 5.04 | 5.374 | 5.827 | 0.248 | ½ NPT | 4.075 | 0.492 | 0.984 | 0.866 | 2 |

SW = spanner width
 Weight without optional accessories

Approvals

| Logo | Description | Country |
|----------|--|--------------------------------|
| EAC | EAC Pressure equipment directive | Eurasian Economic Community |
| © | GOST Metrology, measurement technology | Russia |
| (| BeIGIM Metrology, measurement technology | Belarus |
| © | UkrSEPRO Metrology, measurement technology | Ukraine |
| - | CPA Metrology, measurement technology | China |

Certificates (option)

- 2.2 test report
- 3.1 material certificate for the wetted parts (only model 632.34)

Approvals and certificates, see website
